- Please insert the licensee information in the “Licensee address section”. Please note that the licensee should be either the end-user’s company name or end-user’s name.

Licensee information should contain all the information from your customer. Billing address is automatically showing your address, which you have given to the system when you registered. If you would like to have another address as the billing address, you can change it manually.

The screenshot shows the WinRAR checkout interface. At the top, there are currency and language dropdowns set to 'US Dollar' and 'English'. Below are three tabs: '1. Your details', '2. Review your data', and '3. Done'. The '1. Your details' tab is active, displaying a welcome message for 'Angela Weiske' and a shopping cart with two items: 'WinRAR' (10 units, \$128.00) and 'WinRAR Maintenance' (10 units, \$19.20). The order total is \$147.20. On the right, there are sections for 'Different delivery address', 'Billing address', and 'Licensee address'. The 'Licensee address' section is highlighted with an orange border.

Tip: We highly recommend to use the “Use the billing address as the delivery address.” option in the “Different delivery address” section. This way you will receive the license key and all related documents first and can send them then to your customer.
